Required Installed Software (*does not run on touch screen tablets):

- Digital Technology - Notepad ++ (or TextWrangler for Mac)

¹ Google Drive Apps for Education has limited functionality on a tablet touch screen device like an iPad and Android tablet - you can create a Google Document (tables are not supported), create Google Spreadsheets (limited functionality) and can view Google Presentations.

² Microsoft for Education is available to download free via the school website. Students can download the software to up to 5 different devices.
